

HAWKER

LEVEL CONTROL SYSTEMS

Type E22/P

Medium Duty Electrode Holder

For use with all level controllers and alarms operating in aqueous (conducting) liquids i.e. water, acids, chemical effluent, beverages etc.

- Space Saver
- 3/4" B.S.P.P.
- Suitable for 12mmØ electrodes
- Corrosion resistant for aggressive liquids
- ATEX and IECEx approved version available

The Type E22/P Electrode Holder is moulded in polypropylene copolymer. It is ideal for quiescent water tanks, chemical storage tanks and bunds. Steady brackets and separators etc are available to aid easy site installation. Always use the well proven CSD circuitry available in Hawker Electronics level controllers.

Electrodes:- 316L Stainless Steel with or Without PPA coating (WRAS No 1610508), Titanium, Monel, or Hastelloy C.

Temp Range:- -20°C to +85°C

Weight:- 0.3Kg

This product has been designed and complies to the relevant standards as listed in its certificate of conformity. The installer/user must ensure compliance. Because of continuing development we reserve the right to change the specifications without notice.
