

HAWKER

LEVEL CONTROL SYSTEMS

Light Duty Electrode Holder HPE7/P/F

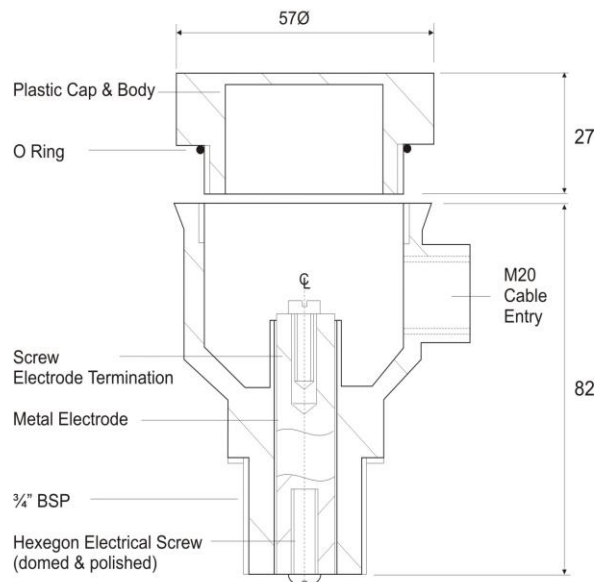

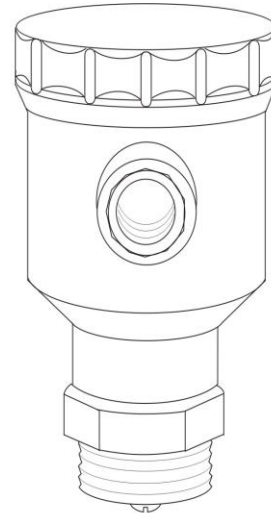

The HPE7/P/F is a pressure tight electrode holder comprising a moulded body in polypropylene and terminating in a domed stainless steel electrode for flush mounting and a screw on cap.

There is a $\frac{3}{4}$ inch BSP threaded process connection.

An optional back-nut (Ref 179) is available

The HPE7/P/F is pressure tight to 300psi at 20°C.

ATEX approved models are available for use with the **P8/IS** level controller

This product has been designed and complies to the relevant standards as listed in its certificate of conformity. The installer/user must ensure compliance.
The crossed out bin symbol, placed on the product, reminds you of the need to dispose of the product correctly at the end of its life.
Because of continuing development we reserve the right to change the specifications without notice
